Classic fiction. This masterly story of desire, hatred and violence opens with the unforgettable character of Rufus Scott, a scavenging Harlem jazz musician adrift in New York. Self-destructive, bad and brilliant, he draws us into a Bohemian underworld pulsing with heat, music and sex, where desperate and dangerous characters betray, love and test each other to the limit.

powerfully portrays the anguish of being Black in a society that at times seems poised on the brink of total racial war. At the height of his theatrical career, the actor Leo Proudhammer is nearly felled by a heart attack. As he hovers between life and death, Baldwin shows the choices that have made him enviably famous and terrifyingly vulnerable. For between Leo's childhood on the streets of Harlem and his arrival into the intoxicating world of the theater lies a wilderness of desire and loss, shame and rage. An adored older brother vanishes into prison. There are love affairs with a white woman and a younger black man, each of whom will make irresistible claims on Leo's loyalty. *Tell Me How Long the Train's Been Gone* is overpowering in its vitality and extravagant in the intensity of its feeling.

subject American Studies - Literature, grade: 2,0, University of Tübingen, language: English, abstract: The novel *Another Country*, published in 1962, was written by James Baldwin, an African-American writer, particularly well known for his social-critical essays. *Another Country*, as a fictional work, serves Baldwin to express several ideas formerly developed in his essay writing and so the novel covers a manifold spectrum of social issues, including race, sexuality and finally love. Love as a central topic in Baldwin's *Another Country* has been analysed by several critics and even Baldwin admits candidly that the novel shows "the desperate searches" of its characters "for the self- knowledge and self-esteem - the identity - without which real love is impossible." But how do these themes work in the novel, what does such a love have to look like and what does it have to

include for the individual to be "able to learn to see real human beings behind the categories, labels, and prejudices" which are imposed by the loveless in a society. This essay undertakes an approximation to these questions mainly on the basis of the novel, considering some of Baldwin's essays and works of critics such as Lorelei Cederstorm or David Leeming. The first part will focus on an analysis of the relationship with which the novel starts and which can be regarded as a crucial guideline, a "negative touchstone" for the further development and interpretation of the novel. In Part II a short overview of the other relationships of the novel is provided. By doing this, their connection with the first relationship will be illustrated, until finally it will be possible to suggest how the characters succeed or fail in the matter of love, which Baldwin conceives as "[...] a journey two people
