• What causes hypertension in children? • Is it common for epileptic patients to have post-ictal vomiting? If so, how often does this occur? • Why is the incidence of parkinsonism less common in smokers? • What is the role of urine examination in diabetic control? Where do you turn to when you have a difficult medical question that needs answering? The 'Ask the Author' online feature from the best-selling textbook Kumar & Clark's Clinical Medicine has collected a wealth of questions and comments directly from medical students and doctors about topics that are of particular interest or difficulty to them. Kumar and Clark have brought together over 1000 of the questions they have been asked along with their answers. It will appeal to the many fans of Kumar & Clark, from first-year students to practising doctors, and will provide a useful and interesting sounding board to help ensure best practice. This unique book will provide you with a quick and easy way to discover the answers to your own medical questions...! The writing style is appealing and conversational, designed to entertain as well as instruct. Carries the 'Kumar & Clark' stamp of authority. All questions fully indexed for ease of reference. Covers topics that are easily misunderstood in medicine – good preparation for medical students, senior house officers/interns and specialists in training/residents preparing for written or oral exams.

Provides techniques for achieving high scores on the AP chemistry exam and includes two full-length practice tests, a subject review for all topics, and sample questions and answers.

This book provides two thousand multiple choice questions on human anatomy and physiology, separated into 40 categories. The answer to each question is accompanied by an explanation. Each category has an introduction to set the scene for the questions to come. However not all possible information is provided within these Introductions, so an Anatomy and Physiology textbook is an indispensable aid to understanding the answers. The questions have been used in examinations for undergraduate introductory courses and as such reflect the focus of these particular courses and are pitched at the level to challenge students that are beginning their training in anatomy and physiology. The questions and answer combinations are to be used both by teachers, to select questions for their next examinations, and by students, when studying for an upcoming test. Students enrolled in the courses for which these questions were written include nursing, midwifery, paramedic, physiotherapy, occupational therapy, nutrition & dietetics, health sciences and students taking an anatomy and physiology course as an elective.

19 pages of contents in middle of book between end of L and beginning of M

The ninth edition of this best-selling textbook of clinical medicine builds even further on its formidable, prize-winning formula of excellence, comprehensiveness and accessibility. 'This book is stunning in its breadth and ease-of-use. It still remains the "gold standard", thorough guide to clinical medicine its forefathers were.' BMA Medical Book Awards judges. New to this edition: 2 new chapters: Global Health and Women's Health. 25 new authors. New online editor, Adam Feather, with a team of young doctors to augment the e-book which accompanies the print book with clinical tips, key learning points, drug tips, learning challenges, case studies and MCQs. Full text redesign to incorporate: New system overview diagrams for clinical chapters. New coloured headings to help identify content relating to disease, management, investigations etc. New icons to aid text navigation. 11 new members and a new co-editor, Senaka Rajapakse, of the International Advisory Board. Edited by Kumar and Clark, clinicians and educators of world-renowned expertise. Authors comprise consultants at the top of their fields, paired with younger doctors closer to the exam experience, to ensure authority and relevance. Enhanced e-book accompanies the print book, for ease of transportation and use on the move. International Advisory Board, led by Professor Janaka de Silva and Professor Senaka Rajapakse, providing guidance for global coverage from across the world. Contributions to the e-book by members of the International Advisory Board to amplify areas of clinical importance in their parts of the world
