The World of Myth: An Anthology by David A. Leeming In *The World of Myth*, David Leeming takes us on a journey "not through a maze of falsehood but through a marvellous world of metaphor," metaphor for "the story of the relationship between the known and the unknown, both around us and within us." *The World of Myth* by David Adams Leeming, 1992 ...

An anthology of myths ranging from ancient Egypt and Greece to the Polynesian Islands and modern science.

Hercules, Zeus, Thor, Gilgamesh--these are the figures that leap to mind when we think of myth. But to David Leeming, myths are more than stories of deities and fantastic beings from non-Christian cultures. Myth is at once the most particular and the most universal feature of civilization, representing common concerns that each society voices in its own idiom. Whether an Egyptian story of creation or the big-bang theory of modern physics, myth is metaphor, mirroring our deepest sense of ourselves in relation to existence itself. Now, in *The World of Myth*, Leeming provides a sweeping anthology of myths, ranging from ancient Egypt and Greece to the Polynesian islands and modern science. We read stories of great floods from the ancient Babylonians, Hebrews, Chinese, and Mayans; tales of apocalypse from India, the Norse, Christianity, and modern science; myths of the mother goddess from Native American Hopi culture and James Lovelock's Gaia. Leeming has culled myths from Aztec, Greek, African, Australian Aboriginal, Japanese, Moslem, Hittite, Celtic, Chinese, and Persian cultures, offering one of the most wide-ranging collections of what he calls the collective dreams of humanity. More important, he has organized these myths according to a number of themes, comparing and contrasting how various societies have addressed similar concerns, or have told similar stories. In the section on dying gods, for example, both Odin and Jesus sacrifice themselves to renew the world, each dying on a tree. Such traditions, he proposes, may have their roots in societies of the distant past, which would ritually sacrifice their kings to renew the tribe. In *The World of Myth*, David Leeming takes us on a journey "not through a maze of falsehood but through a marvellous world of metaphor," metaphor for "the story of the relationship between the known and the unknown, both around us and within us." Fantastic, tragic, bizarre, sometimes funny, the myths he presents speak of the most fundamental human experience, a part of what Joseph Campbell called "the wonderful song of the soul's high adventure."

Hercules, Zeus, Thor, Gilgamesh--these are the figures that leap to mind when we think of myth. But to David Leeming, myths are more than stories of deities and fantastic beings from non-Christian cultures. Myth is at once the most particular and the most universal feature of civilization, representing common concerns that each society voices in its own idiom. In the section on dying gods, for example, both Odin and Jesus sacrifice themselves to renew the world, each dying on a tree. Such traditions, he proposes, may have their roots in societies of the distant past, which would ritually sacrifice their kings to renew the tribe. In *The World of Myth*, David Leeming takes us on a journey "not through a maze of falsehood but through a marvellous world of metaphor," metaphor for "the story of the relationship between the known and the unknown, both around us and within us." Fantastic, tragic, bizarre, sometimes funny, the myths he presents speak of the most fundamental human experience, a part of what Joseph Campbell called "the wonderful song of the soul's high adventure."

Examines the universal themes of myths from cultures ranging from ancient Egypt and Greece to Christianity and modern science, analyzing how different cultures and societies have addressed fundamental human concerns and experiences.

From the legend of Paul Bunyan to the icon of Uncle Sam, a unique collection of America's great myths and legends includes excerpts from primary material and an analysis of how immigrants assimilated to American folklore.

The University of Michigan and the University Corporation for Atmospheric Research present a collection of myths relating to the sun, Earth, moon, the solar system, sky, and stars. Information about the deities of different cultures is available. Beginner, intermediate, and advanced versions of the myths are provided.

With her repulsive face and head full of living, venomous snakes, Medusa is petrifying--quite literally, since looking directly at her turned people to stone. Ever since Perseus cut off her head and presented it to Athena, she has been a woman of many forms: a dangerous female monster that had to be destroyed, an erotic power that could annihilate men, and, thanks to Freud, a woman whose hair was a nest of terrifying penises that signaled castration. She has been immortalized by artists from Leonardo da Vinci to Salvador Dal\u00ed and was the emblem of the Jacobins after the French Revolution. Today, she's viewed by feminists as a noble victim of patriarchy and used by Versace in the designer's logo for men's underwear, haute couture, and exotic dinnerware. She even gives her name to a sushi roll on a Disney resort menu. Why does Medusa continue to have this power to transfix us? David Leeming seeks to answer this question in *Medusa*, a biography of the mythical creature. Searching for the origins of Medusa's myth in cultures that predate ancient Greece, Leeming explores how and why the mythical figure of the gorgon has become one of the most important and enduring ideas in human history. From an oil painting by Caravaggio to Clash of the Titans and Dungeons and Dragons, he delves into the many depictions of Medusa, ultimately revealing that her story is a cultural dream that continues to change and develop with each new era. Asking what the evolution of the Medusa myth discloses about our culture and ourselves, this book paints an illuminating portrait of a woman who has never ceased to enthrall.

James Baldwin was one of the great writers of the last century. In works that have become part of the American canon--Go Tell It on a Mountain, Giovanni's Room, Another Country, The Fire Next Time, and The Evidence of

Things Not Seen—he explored issues of race and racism in America, class distinction, and sexual difference. A gay, African American writer who was born in Harlem, he found the freedom to express himself living in exile in Paris. When he returned to America to cover the Civil Rights movement, he became an activist and controversial spokesman for the movement, writing books that became bestsellers and made him a celebrity, landing him on the cover of Time. In this biography, which Library Journal called “indispensable,” David Leeming creates an intimate portrait of a complex, troubled, driven, and brilliant man. He plumbs every aspect of Baldwin’s life: his relationships with the unknown and the famous, including painter Beauford Delaney, Richard Wright, Lorraine Hansberry, Marlon Brando, Harry Belafonte, Lena Horne, and childhood friend Richard Avedon; his expatriate years in France and Turkey; his gift for compassion and love; the public pressures that overwhelmed his quest for happiness, and his passionate battle for black identity, racial justice, and to “end the racial nightmare and achieve our country.” Skyhorse Publishing, along with our Arcade, Good Books, Sports Publishing, and Yucca imprints, is proud to publish a broad range of biographies, autobiographies, and memoirs. Our list includes biographies on well-known historical figures like Benjamin Franklin, Nelson Mandela, and Alexander Graham Bell, as well as villains from history, such as Heinrich Himmler, John Wayne Gacy, and O. J. Simpson. We have also published survivor stories of World War II, memoirs about overcoming adversity, first-hand tales of adventure, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Stories centuries in the making, and many centuries worth of stories, are an integral part of modern society. Whether modern or ancient, every culture has its myths. Mythology forms our understanding of our origin, history, and traditions. They tell of our heroes and deities. Myths are vehicles for understanding religion, for learning language, and for understanding society, but they can often be difficult to understand and confusing. The Handy Mythology Answer Book examines and explains, in plain English, numerous myths and mythology. From the ancient Greek and Roman to Egypt and Babylon, from Native North American Indian to Celtic, Middle Eastern, Indian, Asian, African, and the lesser known myths from around the world, The Handy Mythology Answer Book has them covered. Whether it is the modern retelling of a classic myth or an ancient story about a Norse god, this helpful resource demystifies the myth, looks at different archetypes and motifs, and even shows how myths help explain our existence and institutions. It answers nearly 600 questions and offers fun facts about the treachery and violence, the inspirational and epic, the supernatural monsters and heroic mortals found in mythology, such as How and when did myths originate? What are the three primary myth types? What is the nature of Creation Myths? How can myths be compared to dreams? Why do humans tell myths? What was the Egyptian Book of the Dead? How is the epic of Gilgamesh like later epics? Why is the biblical flood story so like the Babylonian flood myth? What was the myth of Theseus, the Labyrinth, and the Minotaur? What are the Homeric Hymns? How and why are the Odyssey and the Iliad so different from each other? What is the popular appeal of the Odyssey? Did the Greeks see these myths as religion or as entertainment? What was the background myth of the Oedipus plays? What was the nature of Roman mythology during the Roman Republic? What was the Metamorphosis? How did Christian narrative and tradition fit into and come to dominate the Roman mythological tradition? How is Celtic culture and mythology related to the culture and mythology of Greek, Roman, and other cultures? How did the Vedas contribute to Hindu mythology? Who invented Chinese writing? What was the Aztec pantheon? What is the story of the Cherokee Grandmother Sun? Who are some Native American tricksters? What is the story of Schrödinger’s Cat? How did Freud use myths? How is myth used in politics? A glossary of commonly used terms and an appendix of parallel mythology exploring universal themes, motifs, and archetypes from across various cultures further explains the world of mythology.

Myths are the timeless expression of the imagination born out of the need to make sense of the universe. Moving across the centuries, they resonate with our deepest feelings about the fragility and grandeur of existence. Mythology is a comprehensive, richly illustrated survey of the mythic imagination in all its forms around the world, from the odysseys, quests and battles of ancient Greece and Rome to the living beliefs of indigenous cultures in the Americas, Africa and Oceania. Looking at each major myth-making culture in turn, this book retells some of the most significant and captivating stories in a lively, contemporary style. Generously illustrated with more than 700 color photographs, Mythology brings you the vibrant stories that echo time and again in our lives.
