witch and a warlock battle it out for possession of a haunted house, but the ghost may have her own agenda . . . And, in Trick or Treathen by Caris Roane, a master vampire struggles to stay away from the mortal woman who enflames his very soul.

This book explores the idea that much of our behaviour is controlled by automatic and intuitive mental processes, which shape and compete with our conscious thinking and decision making. Accessibly written, and assuming no prior knowledge of the field, the book will be fascinating reading for all those interested in human behaviour.

Before Bradley Wiggins, there was Sean Yates. Behind Bradley Wiggins, there was Sean Yates. One of only five Britons to wear the yellow jersey in the Tour de France, Sean Yates burst onto the cycling scene as the rawest pure talent this country has ever seen. After turning professional at the age of 22, he soon became known as a die-hard domestique, putting his body on the line for his teammates. Devastatingly fast, powerful and a fearless competitor, Yates won a stage of the Tour, as well as the Vuelta a España, in 1988, and went on to don the coveted maillot jaune six years later. Having put British cycling on the map as a rider, Yates was soon in demand as a directeur sportif, using his tactical knowledge to inspire a new generation of cyclists to success. And after Team Sky came calling, Yates was the man to design the brilliant plan that saw Sky demolish the opposition in 2012, and for Bradley Wiggins to become the first cyclist from these shores to win the Tour. Straight-talking, entertaining and revelatory, It's All About the Bike is the story of a remarkable career told from the unique perspective of a man who is immersed in the history of the sport he loves.

Tom Shadyac is a storyteller. For over 25 years he was one of the top directors in Hollywood, producing some of its highest grossing comedies. However, after his world was rocked by a health condition, he began to consider his purpose, realising an intense need to live life with greater authenticity. Just about everything today comes with an operating manual - from your computer to your car, from your mobile phone to your iPad. Is it possible that Life comes with an operating manual, as

well? That's the simple, but powerful premise of Tom Shadyac's inspiring and provocative first book. Written as a series of essays and dialogues, we are invited into a conversation that is both challenging and empowering. The question now is, can we discern what is written inside of this operating manual and garner the courage to live in accordance with its precepts? A Native American myth tells of two wolves that live inside each of us, two wolves engaged in a fierce battle for control of our lives. One wolf, the fearful wolf, walks in anger, ego, envy, greed, resentment and lies. The other wolf, the truthful wolf, lives in appreciation, kindness, love, joy, compassion, and empathy. Life's Operating Manual is expressed as a series of dialogues between the two wolves of fear and truth, with Tom reflecting on the life experiences that led him to these deep internal meditations. Authentic, direct and profound, Life's Operating Manual is an unexpected gift to any spiritual seeker.
