How can anyone feel hopeful after learning she is fatally ill? Sharon Eagle seeks to answer that very question in Terminal Hope, which chronicles her experience with stage 4 lung cancer. After receiving her diagnosis, Eagle, a longtime nurse and educator, understands immediately that her cancer will probably kill her. What she can't foresee is the remarkable wisdom she gains from the spiritual and emotional quest that her diagnosis sparks. As she navigates the land of cancer, seeking new purpose and meaning, Eagle discovers that her illness has a great deal to teach her. Among many other lessons, cancer inspires her to examine her own faith journey, rebuild relationships, and reconsider patient-caregiver communication and support. Above all, she uncovers compelling evidence for her belief that death is not the end but rather merely a transition to something even better. A moving memoir about the power of positivity, gratitude, and faith, Terminal Hope offers a new perspective for people of all belief systems.

An atmospheric, compelling story of survival, tragedy, the enduring power of myth and memory, and the moments that change one's life. --Kristin Hannah, #1 New York Times bestselling author of The Four Winds [An] enthralling and emotional tale...A story about strength and fate.--Woman's World "An epic novel that explores the metal of human spirit in crisis. It is an expertly told, fascinating story that runs fathoms deep on multiple levels."--New York Journal of Books It was called The Titanic of the South. The luxury steamship sank in 1838 with Savannah's elite on board; through time, their fates were forgotten--until the wreck was found, and now their story is finally being told in this breathtaking novel from the New York Times bestselling author of Becoming Mrs. Lewis. When Savannah history professor Everly Winthrop is asked to guest-curate a new museum collection focusing on artifacts recovered from the steamship Pulaski, she's shocked. The ship sank after a boiler explosion in 1838, and the wreckage was just discovered, 180 years later. Everly can't resist the opportunity to try to solve some of the mysteries and myths surrounding the devastating night of its sinking. Everly's research leads her to the astounding history of a family of eleven who boarded the Pulaski together, and the extraordinary stories of two women from this family: a known survivor, Augusta Longstreet, and her niece, Lilly Forsyth, who was never found, along with her child. These aristocratic women were part of Savannah's society, but when the ship exploded, each was faced with difficult and heartbreaking decisions. This is a moving and powerful exploration of what women will do to endure in the face of tragedy, the role fate plays, and the myriad ways we survive the surviving.

When it comes to recruiting, motivating, and creating great teams, Patty McCord says most companies have it all wrong. McCord helped create the unique and high-performing culture at Netflix, where she was chief talent officer. In her new book, Powerful: Building a Culture of Freedom and Responsibility, she shares what she learned there and elsewhere in Silicon Valley. McCord advocates practicing radical honesty in the workplace, saying good-bye to employees who don't fit the company's emerging needs, and motivating with challenging work, not promises, perks, and bonus plans. McCord argues that the old standbys of corporate HR--annual performance reviews, retention plans, employee empowerment and engagement programs--often end up being a colossal waste of time and resources. Her road-tested advice, offered with humor and irreverence, provides readers a different path for creating a culture of high performance and profitability. Powerfulwill change how you think about work and the way a business should be run.

"On the evening before Thanksgiving, Hal Chase, a guard in the San Francisco County Jail, drives to the airport to pick up his step-brother for the weekend. When they return, Hal's wife, Katie, has disappeared without a clue. By the time Dismas Hardy hears about this, Katie has been missing for five days. The case strikes close to home because Katie had been seeing Hardy's wife, a marriage counselor. By this time, the original Missing Persons case has become a suspected homicide, and Hal is the prime suspect. And the lawyer he wants for his defense is none other than Hardy himself. Hardy calls on his friend, former homicide detective Abe Glitsky, to look into the case. At first it seems like the police might have it right; the Chases' marriage was fraught with problems; Hal's alibi is suspect; the life insurance policy on Katie was huge. But Glitsky's mission is to identify other possible suspects, and there proves to be no shortage of them: Patti Orosco--rich, beautiful, dangerous, and Hal's former lover; the still unknown person who had a recent affair with Katie; even Hal's own step-mother Ruth, resentful of Katie's gatekeeping against her grandchildren. And as Glitsky probes further, he learns of an incident at the San Francisco jail, where Hal works--only one of many questionable inmate deaths that have taken place there. Then, when Katie's body is found not three blocks from the Chase home, Homicide arrests Hal and he finds himself an inmate in the very jail where he used to work, a place full of secrets he knows all too well. Against this backdrop of conspiracy and corruption, ambiguous motives and suspicious alibis, an obsessed Glitsky closes in on the elusive truth. As other deaths begin to pile up he realizes, perhaps too late, that the next victim might be himself" --

Mastering Fear analyzes horror as play and examines what functions horror has and why it is adaptive and beneficial for audiences. It takes a biocultural approach, and focusing on emotions, gender, and play, it argues we play with fiction horror. In horror we engage not only with the negative emotions of fear and disgust, but with a wide range of emotions, both positive and negative. The book lays out a new theory of horror and analyzes female protagonists in contemporary horror from child to teen, adult, middle age, and old age. Since the turn of the millennium, we have seen a new generation of female protagonists in horror. There are feisty teens in The Vampire Diaries (2009-2017), troubled mothers in The Babadook (2014), and struggling women in the New French extremity with Martyrs (2008) and Inside (2007). At the fuzzy edges of the genre are dramas like Pan's Labyrinth (2006) and Black Swan (2010), and middle-age women are now protagonists with Carol in The Walking Dead (2010-) and Jessica Lange's characters in American Horror Story (2011-). Horror is not just for men, but also for women, and not just for the young, but for audiences of all ages.
