creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

enable students to cope with the persuasive techniques in political statements, advertising, entertainment, and news, and explores the reasons these goals have been eclipsed in composition studies over recent decades. Obstacles to those goals have included the emphasis in the profession on basic and first year

writing at the expense of more advanced study in argumentative rhetoric, and on the privileging of students' personal writing over critical study of both academic and political discourse. Lazere further argues that theorists who legitimately champion students' pluralistic local communities sometimes fail to recognize that liberal

education can enable students to grow beyond their home cultures to critical awareness of national and international politics. Finally, he argues that the fixation in recent composition studies on liberally-inclined students and communities "on the margins" has eclipsed attention to the conservative conformity long prevalent in
