This is the final of the four volumes published from 1868-1869 that make up Robert Browning's *The Ring and the Book*, a long blank-verse poem composed of 12 books and over 20,000 lines. This volume includes the books *The Pope*, *Guido* and *The Book and the Ring*.

High Performance Enclosures : Design Guide for Institutional, Commercial and Industrial Buildings in Cold Climates provides guidance for architects and building enclosure engineers working to meet the growing need for buildings that have significantly lower operational energy consumption. John Straube addresses a range of practical questions about low energy building enclosures that save energy while simultaneously improving durability, comfort, and rain control: How much of an impact can the enclosure, massing, and orientation have? How much glazing is appropriate and what options are available? How much does thermal bridging matter and how can it be minimized at difficult structural details? How does one detail thick layers of continuous insulation outside of steel stud walls? Can layers of insulating sheathing reduce the risk of moisture damage?--COVER.

Originally published in 1955, this volume is being reissued to make the entire series available to students and scholars of biblical and post-biblical Judaism and early Christianity.
