Parenting Styles Term Papers

Parenting styles vary, and include authoritarian, authoritative, permissive, and harmonious styles. All of these styles are relatively common, varying depending on culture and individual differences. Television shows reveal different parenting styles. For example, on the sitcom Modern Family, different parenting styles are evident.

Parenting Styles Term Paper - Paperdue.com

Thus, parenting style refers to the specific strategies and philosophies that parents use as they seek to manage their children's growth and development. Most researchers now rely on Baumrind (1991) who described and classified four kinds of parenting styles. Indulgent parents, also called permissive, tend to be lenient with their children.

Research Paper: Parenting Styles | 8 pages

Through naturalistic observation, parenting interviews, and other research methods, Baumrind identified the following four parenting styles: * Authoritative: democratic style of parenting, parents are attentive, forgiving, teach their offspring proper behavior, have a set of rules, and if child fails to follow their is punishment, if followed their is reward/reinforcement

The new edition of *The Developing Person Through the Lifespan* combines theory and the most up-to-date research with practical illustration in order to engage readers in the study of development. It addresses the fundamental issues from a chronological point of view, and covers the entirety of the lifespan (not just infancy or adolescence). The book's enhanced pedagogy works alongside the author's lively narrative voice to ensure that this edition remains as user-friendly, if not more so, than its predecessors.

There is a strong connection between culture and parenting. What is acceptable in one culture is frowned upon in another. This applies to behavior after birth, encouragement in early childhood, and regulation and freedom during adolescence. There are differences in affection and distance, harshness and repression, and acceptance and criticism. Some parents insist on obedience; others are concerned with individual development. This clearly differs from parent to parent, but there is just as clearly a connection to culture. This book includes chapters on China, Colombia, Jordan, Kenya, the Philippines, Thailand, Korea, Vietnam, Brazil, Native Americans and Australians, Argentina, Chile, Mexico, Ecuador, Cuba, Pakistan, Nigeria, Morocco, and several other countries. Beside this, the authors address depression, academic achievement, behavior, adolescent identity, abusive parenting, grandparents as parents, fatherhood, parental agreement and disagreement, emotional availability and stepparents.?

Psychologist Diana Baumrind's revolutionary prototype of parenting, called authoritative parenting, combines the best of various parenting styles. In contrast to previously advocated styles involving high responsiveness and low demandingness (i.e., permissive parenting) or low responsiveness and high demandingness (i.e., authoritarian parenting), authoritative parenting involves high levels of both responsiveness and demandingness. The result is an appropriate mix of warm nurturance and firm discipline. Decades of research have supported the prototype, and we now know that authoritative parenting fosters high achievement, emotional adjustment, self-reliance, and social confidence in children and adolescents. In this book, leading scholars update our thinking about authoritative parenting and address three unresolved issues: mechanisms of the style's effectiveness, variations of effectiveness across cultures, and untangling how parents influence children from how children influence them. By integrating perspectives from developmental and clinical psychology, the book will inform prevention and intervention efforts to help parents maximise their children's potential.

Part of the authoritative four-volume reference that spans the entire field of child development and has set the standard against which all other scholarly references are compared. Updated and revised to reflect the new developments in the field, the *Handbook of Child Psychology, Sixth Edition* contains new chapters on such topics as spirituality, social understanding, and non-verbal communication. Volume 4: *Child Psychology in Practice*, edited by K. Ann Renninger, Swarthmore College, and Irving E. Sigel, Educational Testing Service, covers child psychology in clinical and educational practice. New topics addressed include educational assessment and evaluation, character education, learning disabilities, mental retardation, media and popular culture, children's health and parenting.

Explore the most fundamental human relationship—between parent and child Western social science has long neglected to acknowledge that family relationships must always be examined from a culturally sensitive perspective. *Parent-Youth Relations: Cultural and Cross-Cultural Perspectives* fills this void by exploring in depth the most fundamental human relationship—between parent and child—in different societies around the world. International experts provide a comprehensive collection of original research and theory on how parental styles and the effects of culture are interconnected. Written from diverse perspectives, this unique resource reveals deep insight into these relationships by focusing on the individuals, the structure of the family, and societal and cultural influences. Parental relations and cultural belief systems both play integral parts on how socialization and development occur in children. *Parent-Youth Relations: Cultural and Cross-Cultural Perspectives* presents several viewpoints, some comparing similarities and differences across societies or nations, others exploring relationships within a single culture. This probing global look at parent-youth relations provides sensitively nuanced information valuable for every professional or student in the social sciences. Detailed tables illustrate research data while thorough bibliographies offer opportunities for further study. *Parent-Youth*

Parent-Youth Relations: Cultural and Cross-Cultural Perspectives presents the freshest research available along with extensive bibliographies, providing essential reading for educators, advanced undergraduates, graduate students, and professionals in family studies, sociology, psychology, and anthropology.

A lot of people wonder how Chinese parents raise such stereotypically successful kids. They wonder what Chinese parents do to produce so many math whizzes and music prodigies, what it's like inside the family, and whether they could do it too. Well, I can tell them, because I've done it... Amy Chua's daughters, Sophia and Louisa (Lulu) were polite, interesting and helpful, they had perfect school marks and exceptional musical abilities. The Chinese-parenting model certainly seemed to produce results. But what happens when you do not tolerate disobedience and are confronted by a screaming child who would sooner freeze outside in the cold than be forced to play the piano? Battle Hymn of the Tiger Mother is a story about a mother, two daughters, and two dogs. It was supposed to be a story of how Chinese parents are better at raising kids than Western ones. But instead, it's about a bitter clash of cultures, a fleeting taste of glory, and how you can be humbled by a thirteen-year-old. Witty, entertaining and provocative, this is a unique and important book that will transform your perspective of parenting forever.

Parenting doesn't end at 18 .Has your nest not emptied? Has your adult child made lifestyle choices you don't agree with? Has becoming an in-law made you consider becoming an outlaw? Many parents today answer an exasperating "yes" to these and many other questions that describe the frustration encountered between them and their adult children. Parenting no longer ends at 18, yet very few resources are available to help parents better communicate with their child who is no longer a child. Ross Campbell and Gary Chapman, authors of The Five Love Languages of Children, have teamed up again to bring us another tool for parenting. They will help you deal with such issues as helping your child find success, dealing with anger, when adult children return with their children, religious choices, and positive parental love. You can survive this stage in your life. And with the excellent advice from Drs. Campbell and Chapman, you can even enjoy it!
