The power of healing through one's gaze, touch, and the laying on of hands is one of the forms by which spiritual action is exerted over the world. Some individuals, by prayer and magnetic lan, attract this influx to themselves, this radiance of the divine force which drives off the impure fluids that cause so much suffering. The spirit of charity, of devotion verging on sacrifice, of forgetfulness of self, is the condition necessary to acquire and preserve this power, one of the most wonderful ones bestowed by God on humans. In the words of the Spirit Emmanuel ..".health means the perfect harmony of the soul." Some ancient practices advocated the need for cure of the subtle body prior to any permanent physical cure could be achieved. This is also present in the Spiritist approach to healing. To heal, human beings must be considered in their wholeness - body plus spirit. All the healers of antiquity were initiates and priests. In modern medicine there is a great demand for highly specialized training, and this leads us to ask: "Who can heal?" When considering spiritual healing through passes, we can safely say that everyone is able to heal to some degree, and we will be looking at this throughout this book.
