The Psychology of Man's Possible Evolution SOME YEARS ago I began to receive letters from readers of my books. All these letters contained one question, what I had been doing after I had written my books, which were published in English in 1920 and 1931, and had been written in 1910 and 1912. I could never answer these letters.

The Psychology Of Man's Possible Evolution = Psicología de la Posible Evolución del Hombre. Through a series of five lectures, the Russian philosopher whose other writings include "Tertium Organum" and "In Search of the Miraculous" considers the 'forgotten science of psychology'. Disregarding the study of man as he is or seems to be (with which the modern schools concern themselves), he turns to the study of man as he may be, what man's evolution means and the question of whether ...
